What are cookies and how do we use them?

A cookie is a block of text placed in a file on the user's hard drive by a website you've visited. These types of cookies cannot identify an individual user specifically, such as by name or address, unless the cookie data is attached to personally identifiable information such as online registration. TacoTimeNW.com uses cookies to observe our site visitor's navigation throughout the Site. This helps us to identify ways to improve your experience. TacoTimeNW.com also uses a session cookie, which is a piece of identification between your browser and our server, which helps to do things like keep track of the items in a user's shopping cart, and other

information. The shopping cart cookie is saved for a designated period of time in case the user's session expires or he or she returns to complete a purchase within that time frame.

SECURITY

What kind of security procedures are in place to protect the loss, misuse, or alteration of information under our control? *We value your business and are committed to doing everything possible to make our online ordering process secure.*

Secure Ordering Process

Any credit card information you enter on the Site is strongly encrypted by industry-standard protocol, SSL (Secure Sockets Layer). The Site uses SSL to communicate with secure browsers like Mozilla Firefox and Microsoft Internet Explorer. These browsers encrypt your credit card and personal information in a way that makes it extremely difficult for anyone to intercept and misuse the information while it is being transmitted between your computer and our server. Don't worry if your browser is secure or not - if it is insecure, you will not be able to purchase on our online store.

Once you have completed your order online, our security procedures do not end. We take appropriate precautions to protect the security and privacy of the information stored on our computer networks. Many of the systems which store your personal information are not connected to the Internet, reducing the likelihood of security breaches. Our systems are also housed in secure facilities, and access to your data by our employees is limited to a "need to know" basis, controlled by password protected systems, and monitored for abuse. As an added precaution, credit card information is not stored at all in our databases.

CHILDREN'S PRIVACY NOTICE

The Children's Online Privacy Protection Act of 1998 (COPPA) protects the personal information of children under the age of 13. This applies to individually identifiable information about a child that is collected online, such as full name, home address, email address, telephone

number, or any other information that would allow someone to identify or contact the child. COPPA also covers other types of information—for example, hobbies, interests, and information collected through cookies or other types of tracking mechanisms—when they are tied to individually identifiable information. It is important for you to understand this law; we encourage you to read more about COPPA.

Taco Time Northwest is committed to providing a safe, secure, and fun online experience for children who visit the Site. We are dedicated to safeguarding any personal information collected online and to helping parents and children have positive experiences on the Internet. Consistent with COPPA, we will never knowingly request personally identifiable information from anyone under the age of 13 without prior verifiable parental consent.

Younger visitors should always check with their parents or guardians before entering information on any website and we encourage families to discuss their household guidelines regarding the online sharing of personal information.

What Personal Information Does Taco Time Northwest Collect?

We offer many features on our Site that do not require a child to provide any personal information. On occasion, however, we may collect personal information, such as an email address, from children as part of an activity. For example, entry into our Kid's Club.

We will not collect other personal information from a child under the age of 13, such as a postal address or telephone number, without the consent of a parent or guardian. If parent or guardian consent is required, we will collect the email address of the parent or guardian so we can provide notice of our information practices and/or seek the parent's or guardian's consent.

Taco Time Northwest will not condition a child's participation in any online activity on the child's disclosure of more personal information than is reasonably necessary to participate in that activity.

How Does Taco Time Northwest Use the Personal Information It Collects?

We use email addresses submitted by a child in order to send notifications (such as birthday gift coupons). We use the email address of a parent or guardian in order to provide the parent notice of our information practices or to seek the parent's or guardian's consent.

Requests from Parents or Guardians Regarding Our Children's Privacy Practices

Parents or Guardians may review personal information we have collected from their child that has not been deleted, and can request that the personal information be deleted from our records if it has not been already. Parents or Guardians also may refuse to permit further collection or use of their child's personal information, when the parent or guardian has

previously provided consent. To do so, please contact us at the address, telephone number or email address provided below with your request.

Parents or Guardians can revoke their consent and ask that information about their children be deleted from the Site by contacting our offices by one of the methods below. To do this, or to review personal information collected from children, we must verify the identity of the requesting parent. When a parent revokes consent, we will stop collecting, using, or disclosing information from that child.

To respect the privacy of parents and guardians, information collected and used for the sole purpose of obtaining verifiable parental consent or providing notice is not maintained in retrievable form by the Site if parental or guardian consent is not obtained after a reasonable time.

Taco Time Northwest believes it is good policy not to collect more personally identifiable information from children under 13 than is necessary for them to participate in our online activities. In addition, be aware that all sites that are targeted to children under 13 are prohibited by law from collecting more information than they need.
